

The SnackBreak Slim

This incredibly versatile machine is only 12" deep and is the ideal solution for locations where space is at a premium such as corridors and reception areas

Within its compact dimensions 16 different product selections may be dispensed from the standard machine

The modular design means different shelf configurations can be specified allowing every machine to be individually tailored

Ambient, refrigerated and even battery powered versions are available

Energy efficient ice white LED lighting is fitted as standard

A range of payment options are available, including the opportunity to 'slave' the SnackBreak Slim to a DarenthMJS host machine

Unique graphics and colours can also be supplied to meet your specific requirements

Standard Features Include:

- Super-slim compact design
- 16 product selections
- Ice white LED lighting
- Easy-fill inner door mechanism
- Ambient

Optional Features Include:

Payment Systems:*
