

H₂O

HYDRATION STATION

REFILL YOUR BOTTLE AT THE TOUCH OF A BUTTON

HYDRATE & HELP REDUCE WASTE

Water is the world's number one beverage, keeping us hydrated and productive. Bottled water has never been so fashionable, with sales of bottled water outstripping soft drinks in 2016*, but where is the market heading now?

There has been a marked increase in public awareness surrounding the volume of plastic waste generated, in particular by products such as bottled water. With this growth in awareness comes a decrease in the sustainability of the plastic bottle industry and a certainty that personal drinking bottles will become the norm in due course. Alongside this transition will come a larger need for machines capable of refilling water bottles.

Our H2O machine is capable of refilling any cup or bottle with up to 500ml of still, sparkling or flavoured water.

- VERSATILE CHOICES - SELECT A CONFIGURATION FOR YOUR MACHINE

Drinks	Still	Still and Sparkling			
	Option A	Option B	Option C	Option D	Option E
Still Water and cup	✓	✓	✓	✓	✓
Sparkling Water and cup	-	✓	✓	✓	✓
Still 500ml Bottle Fill	✓	✓	✓	-	-
Still Flavour 1	✓	✓	-	✓	-
Still Flavour 2	✓	-	-	-	-
Sparkling Flavour 1	-	-	✓	✓	✓
Sparkling Flavour 2	-	-	-	-	✓

FLASH COOLING TECHNOLOGY allows the H2O to chill the drink as the selection is made, saving energy. No more constantly running refrigerators or gas compressors.

FILTERED FOR REFRESHMENT using equipment from industry experts Brita and 3M to ensure a drink of water that tastes good and is free from impurities.

PAID OR FREE VEND AVAILABLE, so whether you're looking for a sturdy office water machine to keep your staff hydrated and productive for years to come, or a machine for public locations offering a paid service, H2O can manage both.

LOW ENERGY LED LIGHTING to help save energy and increase the lifespan of the machine. LEDs in the H2O last up to 50 000 hours for peace of mind.

MEASURE USER TRENDS using a simple USB drive. Download your machine telemetry from the machine easily to help you effectively monitor your machine's usage.
