The IceBerg

This feature packed, "full size" point of use water dispenser is designed to address the rapidly growing demand for quality drinking water. Backed by the most recognizable name and undoubted market leader in water filtration technology, the IceBerg perfectly solves all of your rehydration needs.

With its ability to dispense ambient, chilled or even carbonated (sparkling) water, together with further options of ultra violet purification and up to 4 additional flavourings, the IceBerg will delight users time after time.

700 cup capacity internal and fully automatic cup dispenser.

Bottle option allows machine to be used to refill customers own plastic sports style bottles (including flavourings, if required).

Large, highly polished stainless steel delivery station with superb feature lighting effect.

IceBerg in new metallic silver presentation partnered with Milano speciality beverage dispenser

IceBerg partnered with Milano speciality beverage dispenser together with full size SnackBreak - the ideal total refreshment station

Choice of door colour to suit any environment or complimentary equipment.

Brightly illuminated, prominent branding panel.

Optional ultra violet purification system.

Perfectly compliments a hot beverage service and specifically designed to "bank" with other equipment from the extensive DarenthMJS range.

Brita AquaQuell 1.5 filter cartridge and head fitted as standard.

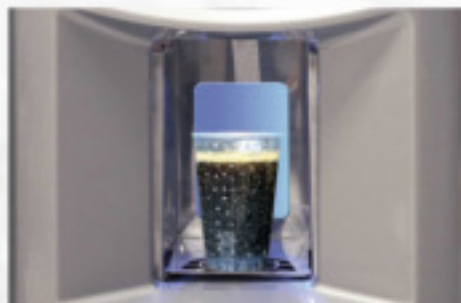

Equally as competent as a stand alone solution - can even be fitted with its own payment system including full change-giving facility if required!

None of the hassle associated with bulk water delivery and bottle replenishment.

Optional 2 or 4 syrup based flavourings including superb range of flavour 'hinted' waters.

Eye catching, complimentary, modern styling.

The IceBerg by DarenthMJS is the perfect solution to all your rehydration needs. Superbly compliments a hot beverage provision in the workplace or equally as competent as a stand alone point of use system in a sports centre or gymnasium, the IceBerg serves exceptionally high quality, Brita filtered water that users will simply love.

Fully automatic cup dispense system

Allows user to refill their own sports type bottles

Up to 4 delicious syrup based flavours can be served

TOTAL DESIGN & MANUFACTURE

DRINKS OPTIONS

Selections:

Extremely high quality, Brita filtered water as standard.

Optional ultra violet water purification system.

Optional "Ice bank" type chiller providing capacity to maintain high throughput of drinks.

Optional cooler/carbonator to provide further user choice of sparkling drinks.

Syrup flavourings:

2 or 4 syrup based flavourings can be served.

Syrup stored in 5 ltr bottles - high capacity means infrequent need to refill.

Delicious range of flavourings available including superb 'flavour hinted' waters.

Internal cup management system:

Fully automatic and compatible with 71, 73 or 76mm cups (please specify at time of order).

Compatible with paper or plastic cups, including larger sizes.

Huge 700 cup capacity.

WATER REQUIREMENTS:

Mains water connection via 3/4" BSP fitting (connection hose available).

Mains water pressure 1.5 - 10 bar (0.15 Mpa - 1Mpa).

POWER REQUIREMENTS:

220-240 V, 50 Hz, single phase.

300 W, 13 A plug fuse.

Machine fitted with 1.7 metre mains lead.

DIMENSIONS (WxHxD):

Machine: 440mm x 1850mm x 655mm

WEIGHT:

Machine: 105Kg

Machine fitted with chiller: 116Kg

Machine fitted with cooler/carbonator: 118Kg

PAYMENT SYSTEMS:

The Iceberg is perfect as a stand alone, point of use water dispense solution. It is available as a free vend machine, fitted with a full electronic coin mechanism which accepts all coins plus token and can even be fitted with a full change-giving facility if required.

Alternatively, the Iceberg can be utilised to perfectly compliment the entire range of DarenthMJS hot beverage machines and in this format can operate as a "slave" to the host machine and hence utilise the same payment system.

High visibility, stylish blue, liquid crystal display.

I-Key cashless payment system compatible.
