The SnackBreak Ultima

The SnackBreak Ultima from DarentHMJS is the ultimate fusion of style and function. The fantastic LED external lighting option highlights the extensive capacity of this highly versatile snack machine, which is easily customisable to accommodate individual client requirements. The SnackBreak Ultima has been designed by Europe's leading designers of vending and dispense equipment and performs extremely well as a stand alone unit or can be banked with other equipment from the extensive DarentHMJS range to form a complete refreshment solution.

The optional 4 selection can module enhances user choice yet further - presenting a choice of 4 cans with a huge 116 can total capacity all served deliciously **ICE COLD**

SnackBreak Ultima pictured features optional blue neon-effect lighting

Stunning neon-effect feature lighting option, single or multi-colour.

Optional radar based movement detection for energy saving and highly effective customer attract mode.

Cashless payment options, coin validator, change-giver, note acceptor, or even credit / debit card payment.

Vendsafe drop detection system included as standard.

Eye catching style with ultra modern appeal.

SnackBreak Ultima pictured with the optional can module and red neon-effect lighting

Machines pictured feature the Snack Break Ultima partnered with the Refresh 1400 - a superb total refreshment solution

Double glazed, thermally insulated display panel.

Ice white, energy efficient LED internal lighting fitted as standard.

Individual price setting for all products including cans.

Digitally programmable temperature control.

Optional dual Zone refrigeration system ensures cans are delivered **ICE COLD**

Easy fill tray system with easy clean trays and chrome effect spirals.

Optional high capacity, 4 selection can module.

Quadruple locking point on main door for enhanced security.

User friendly programming and operation.

Insulated and refrigerated cabinet with fully automatic defrost system.

Leading the way in environmentally friendly automatic retail, the SnackBreak Ultima is constructed using entirely CFC free insulation materials. Fitted internally with energy efficient Ice White LED lighting, consuming only a fraction of the power of old fashioned fluorescent tubes and totally eliminating harmful chemicals such as mercury. The optional radar based presence detection system even has the intelligence to turn the lights off altogether when nobody is around! In short, the SnackBreak Ultima is designed to always use the least amount of energy possible, thereby protecting our precious environment.

Accommodates large sized crisp and other bagged products with ease

Market leading, super high capacity, optional can module provides users with a choice of 4 cans - all served deliciously **ICE COLD**

The SnackBreak Ultima is available in a range of colours, graphics, and branding options including the attractive external LED lighting system

Bottle tray compatible with even the largest sports style
