Extremely high quality Brita filtered water as standard.

Optional Ultra Violet water purification system.

Optional "Ice Bank" type chiller providing capacity to maintain high throughput of drinks.

Optional cooler/carbonator to provide further user choice of still or sparkling drinks.

Syrup flavourings:

2 or 4 syrup based flavourings can be added.

Syrup stored in 5ltr bottles situated in base of machine.

Delicious range of flavourings available including superb 'flavour hinted' waters.

POWER REQUIREMENTS:

220-240 V, 50 Hz, single phase.

300 W, 13 A plug fuse.

Machine fitted with 1.5 metre mains lead and is equipped with a power outlet socket for optional hot drinks machine (combination requires only one wall socket).

WATER REQUIREMENTS:

Mains water connection via 3/4" BSP fitting (connection hose available).

Mains water pressure 1.5 - 10 bar (0.15 Mpa - 1 Mpa).

DIMENSIONS (WxHxD):

Machine: 780mm x 1000mm x 600mm

(Similar height to hot drinks machine base cabinet, which can be eliminated if the IceBreak is installed)

WEIGHT:

Basic machine: 85Kg

Machine fitted with water chiller: 96Kg

Machine fitted with cooler/carbonator: 96Kg

COIN CONTROL

The WaterBoy is primarily designed to perfectly compliment the entire range of DarenthMJS hot beverage machines and in this format operates as a slave to the host machine, thereby utilising the same payment system.

The WaterBoy is also equally as capable of operating in a stand alone free vend "point of use" format, or can even be fitted with its own coin validator which accepts all coins.

High visibility digital display with scrolling messages and full audit trail facility.

Free vend master override switch.

I-Key cashless payment system compatible.

OPTIONS

Ice Bank type chiller for serving refreshingly *ice cold* drinks.

Ultra Violet water purification system.

Cooler/carbonator to provide users with a choice of still or sparkling drink options.

2 or 4 flavour syrup upgrade.

Low CO2 pressure sensor.
